

Programs Committee

Scott Perkins
Programs Committee Chair
(913) 221-3512
sperkins@sam.biz

About the Committee:

The Programs Committee creates and manages SAME GKC's monthly events. The committee collaborates with The Post's president to develop a schedule, secure speakers and partner with other organizations that align with The Post mission. Additionally, a member of the committee attends each event to check in members, manage guest speakers and answer questions as they arise.

Programs key areas of focus include:

- **Continuing Education** – provide speakers at events that are focused on the further professional development of our membership. Presentations can be on a variety of topics, including but not limited to; technical advances, business development, leadership and project management.
- **Signature Networking Events** – including CGSC Social and Vice President's Dinner.
- **Small Business** – an annual half-day event that is targeted toward small business members of the GKC Post. This replaces that month's event.
- **Architectural Practice** – a subset of committee members dedicated to building relationships in the architecture industry, which is mandated by SAME's national headquarters.

The committee member roles include:

- Chair: Scott Perkins
- Registration: Scott Perkins (interim)
- Small Business: Amy McCurdy
- Architectural Practice: Matthew Turner
- Energy and Sustainability: Carrie Bradley

How you can help:

The Programs Committee is an ideal position for members interested in beginning their involvement in The Post. The committee gives participants the opportunity to build relationships with other members, The Post and local partner organizations, allowing them to quickly learn about the organization and facilitate events.

New members or those interested in bringing new ideas to SAME GKC's programming are encouraged to contact [Scott Perkins](#) for more information about getting involved.
