About the Committee:

The mission of the Resilience Committee is to facilitate public and private sector collaboration to minimize impacts of and enhance effective response to natural or man-made threats. The committee’s primary goals are:

- Leverage The Infrastructure Security Partnership Council (TISP) and local and regional stakeholders to provide resiliency/recovery training and awareness to both members and stakeholders with regards to local infrastructure risks and mitigation strategies.
- Provide joint training and awareness to members, and local and regional stakeholders with regards to the efficient development, implementation and use of new and existing technologies that improve infrastructure resilience.
- Provide joint training and awareness to members, and local and regional stakeholders with regards to cybersecurity challenges and solutions.
- Provide joint training and awareness to members, and local and regional stakeholders with regards to water and energy challenges and solutions.
