Memorandum for Record

SUBJECT: Validation of Attendance for Professional Development Hours

This memorandum provides the formal documentation of attendance and one professional development hours earned for the presentation on **28 October 2021** via a Webinar. See attachment for a list of attendees.

This presentation was presented by Dr. Todd Bridges and Dr. Jeff King. They are the National Lead, and Deputy National Lead and Program Manager respectively of the US Army Corps of Engineers' Engineering with Nature (EWN) initiative.

Over the last 5 years, natural hazards, such as floods and storms, produced more than \$10 billion dollars in damages to Department of Defense (DoD) Installations. The complex DoD mission necessitates resilient infrastructure systems requiring innovative action. EWN is leading the way to harness the power of nature to support mission resilience. This presentation focused on **EWN in Cold Regions** including melting permafrost, loss of shore-fast ice, and sea level rise which are threatening cold region DoD installations and communities.

I have a recorded version of the Webinar. A "roll call" was taken at the beginning to identify who was on the Webinar for this presentation for which they are seeking professional development hours. By my signature I am confirming the attendees listed in the attached attendance sheets were present for the aforementioned presentation.
