A most exciting event,
full of networking,
fun
and one of the last
outdoor activities
rounding out your
summer.

Sponsorships --

For this event to be successful, we need everyone's help and participation. The area where you and your employers can provide the most support is in the form of sponsorship. Sponsors will receive recognition in all mailings and tournament day recognition with signs on the course and in the program. The Buffalo Post will also submit a short article for publication in The Military Engineer magazine (35,000 circulation). Sponsorships are available at a variety of levels.

Proceeds from this year's tournament go directly to the Buffalo Post's Scholarship Fund and the ASCE Julian Snyder Scholarship Fund as well as the UB ASCE Student Chapter. The Buffalo Post's Scholarship Fund has provided over \$19,000 in financial assistance to more than 25 local students over the past 6 years and over the past 3 years the ASCE Student Chapter has utilized nearly \$7,000 in golf tournament proceeds for vital initiatives with in their program from recruitment of new members to attendance at National Conferences and progressing their Engineering Design Team projects (Steel Bridge Team, Concrete Canoe Team and Seismic Design Team).

This tournament is the **PRIMARY** fund-raiser for both organizations.

This year we are once again aiming to achieve **100% support** but can only do so with your help.

ABOUT ASCE:

The purpose of ASCE is educational, scientific, literary, and charitable, including but not limited to:

The vision of ASCE is the engineers as global leaders building a better quality of life. Its mission is to provide essential value to its members, their careers, our partners, and the public through developing leadership, advancing technology, advocating lifelong learning and promoting the profession.

ABOUT SAME:

The mission of the Society of American Military Engineers is to promote and facilitate engineering support for national security by developing and enhancing relationships and competencies among uniformed services, public and private sector engineers, and related professionals.

The vision of SAME is to be a premier global engineering organization leading the professional and personal growth of all members in support of military readiness and development of solutions to national security and challenges
