

## Engineer-in-Training - Civil

### Overview

Hayden Consultants, Inc. is a civil engineering consulting firm specializing in public infrastructure design services. We are currently seeking an EIT with experience in designing roadway and public works projects. Our current design projects include highways, streets, light rail, drainage and utilities for state and local governments. Some of our major clients include TxDOT, DART, NTMWD, City of Dallas, Mesquite, Plano, Arlington and Fort Worth. We offer our employees challenging career opportunities as well as an environment for continuous growth. We are seeking a motivated individual to join our team.

### Requirements

- Bachelor of Science in Civil Engineering from an accredited university
- Engineer in Training certification
- Microstation or CADD experience a plus
- Experience working in the transportation industry a plus

### Principal Duties and Responsibilities

- Working under the guidance and mentoring of a licensed professional engineer, you will design roadway, light rail and related public works projects
- You will review and evaluate design and construction practices

### Compensation/Benefits

Hayden Consultants offers a competitive salary and a comprehensive benefits package that includes:

- Employer Sponsored Medical Insurance
- Nine (9) Paid Holidays per year
- Three (3) Weeks Paid Time Off per year
- Business-Casual Work Environment
- 401k with Employer Match
