Upcoming Nov. Virtual Meeting MAIN PRESENTATION

Overall Operation of Emergency Medical Facility

Presented by:
CDR Brandon Casperon
Chief Staff Officer for Commander
Task Force (CTF) 75

OCTOBER RECAP: NAVAL BASE GUAM COVID-19 RESPONSE

LT Joshua Owens, P.E., provided the main presentation at our virtual October General Membership Meeting covering NBG's COVID-19 Response. LT Owens' previous assignment was NBG's Operations Center Director.

NBG established the task force (TF) COVID DEFEAT Emergency Operations Center (EOC) Battlewatch which is primarily responsible for execution of its Restriction of Movement (ROM) Standard Operating Procedures (SOP) in response to the COVID-19 pandemic. The lines of effort for this TF include ROM management, COVID management and Supporting the Fleet. Supporting tasks including: 1) tracking and oversight, 2) lodging and sustainment support, 3) transportation support, 4) medical support and public health surveillance, 5) force health protection enclave management and 6) facilities support.

Under ROM management, NBG has averaged 524 personnel in ROM per day and 787 personnel per day at peak with lodging in NBG facilities, off-base hotels and private residences. Under COVID management, NBG averaged 128 personnel in quarantine or isolation per day and 426 personnel per day at peak. Logistical support tracked 63,550 meals delivered, 1,720 personnel transported, 1,540 airport arrivals processed, 1,600 wellness checks and 400 counseling sessions performed and delivery of packages and quality of life items totaling \$680K.

At the time of this presentation, the latest version of NBG's Public Health Order had the Health Protection Condition (HPCON) set at BRAVO. When the HPCON is BRAVO the area is experiencing an increase in community transmissions. The HPCON order is applicable to all personnel onboard NBG, including active duty service members, Department of Defense (DoD) and other U.S. Government civilian employees, dependents of military or civilian personnel, contractors, civilian mariners, indirect hire agreement employees, DoD beneficiaries, and other individuals who are subject to DoD authority. This order is also applicable to all commands, activities, agencies, and departments who are tenants or provide services onboard NBG.

The ROM SOP applies to all DoD active duty members, dependents, contractors, sub-contractors, or other personnel subject to DoD or Government of Guam ROM who are permanently or temporarily assigned to NBG or a unit homeported or located onboard NBG. All personnel may be subject to ROM in order to mitigate the spread of the COVID-19 pandemic. The ROM SOP includes flow charts to provide information for authorized quarantine locations, expected and unexpected arrivals.

Regarding designations of mission essential status for DoD affiliated personnel on Guam are subject to approval by cognizant authority in the operational chain of command or supervision subject to approval by the Commander, Joint Region Marianas (JRM). Personnel requesting permission to perform mission essential duties while in a ROM status must submit a request to the NBG EOC via their chain of command, including a written determination of the mission impacts if not approved and concept of operations (CONOPS) and COVID-19 mitigation measures related to any mission essential travel. The NBG EOC will forward all requests for mission essential designation to the JRM Regional Operations Center for approval and coordination.

Any questions concerning the HPCON orders and ROM SOP shall be directed to the NBG Emergency Operations Center Battlewatch at 333-2784 or via electronic mail to M-GU-NBG-EOC-BTLWTCH@fe.navy.mil
