**ENGINEERS, ARCHITECTS, AND  
 LAND SURVEYORS (EALS) WEEK**

**FEBRUARY 20-26, 2022**

**REIMAGINING  
 the POSSIBLE**

The SAME Guam Post will be celebrating Engineers, Architects, and Land Surveyors (EALS) Week from 20-26 February 2022. This year's theme, "Engineers, Architects & Land Surveyors: Reimagining the Possible," recognizes the integrity, skill and commitment of Guam's engineers, architects and land surveyors. The countless hours of work done by these dedicated individuals in the private sector, government and military make a world of difference.

To the right is the current schedule of events for EALS Week. As is the case with many other events, due to the on-going pandemic, all EALS events are virtual this year.

The annual Proclamation Signing through the Governor of Guam's Office was rescheduled to 18 February 2022, at 1:30PM and will be live-broadcasted through social media.

Volunteers are currently being sought to promote the importance STEM careers through virtual presentations to local high school students throughout the island.

The SAME Guam Post will be hosting the annual Joint Membership Meeting in conjunction with EALS week and will include 11 other A-E-C organizations on Guam. The meeting will feature Military Construction Program Updates by NAVFAC Marianas and OICC Marine Corps Marianas.

More information can be found at the SAME Guam Post website.
