SECRETARY
Charles E. Settoon, P.E.

MONTHLY NEWSLETTER

FEBRUARY 2018

Recruiting New Members

Greetings and Happy Mardi Gras, I hope everyone is having a wonderful carnival season.

As we ramp up for 2018, I'd like to encourage everyone to work towards recruiting new members. We have a great post, but we can always get better. One way to do that is to expand our membership. We each came to SAME in our own way, but we stayed on as members because we value the organization and the people in it. In the coming weeks, please share your SAME experience with your colleagues and friends and invite them to attend a meeting. There is no membership requirement to attend a meeting. Not everyone will join, but we won't find new members without trying.

We have a lot to look forward to in the coming year as a Post and organization wide. Let us all try to get some new members and expand the team.

Essayons!

COL Mike Clancy

HOST SUSTAINING MEMBER INFORMATION

We still have some luncheon meetings available for Sustaining Members to host. Hosting our monthly meetings is a great opportunity to put your firm in the limelight and showcase your firm's experience and abilities. If your firm is interested in hosting one of these meetings, please contact Charlie Settoon at (504) 889-0182.

We would like to thank all the Sustaining Member Firms who have hosted a monthly meeting in the past. If it has been a while since your firm hosted a meeting, you are welcome to host another meeting. Let's continue to show our support for the Louisiana Post through this great professional opportunity.

MEMBERSHIP INFORMATION AND NEWS

MEMBER INFORMATION

Nicholas Mannix, PE
Engineering Group Manager

Nicholas joined Woodward Design+Build in 2013 as the Division Manager of Woodward Engineering Group

(<http://www.woodwarddesignbuild.com/capabilities/engineering/>), bringing with him a wealth of expertise in structural engineering solutions and project management.

Prior to joining Woodward, Nicholas directed structural engineering efforts on projects throughout New Jersey and Pennsylvania, working on municipal buildings, K-12 schools, university campuses, state and federal government projects, healthcare facilities, commercial centers and more.

At Woodward, Nicholas manages and coordinates structural design on commercial, multi-family residential, industrial and institutional projects, while mentoring and supervising the efforts of Woodward's engineering staff. As the Division Manager, he also coordinates with architects, project managers, construction field personnel and subconsultants on numerous projects.

Nicholas earned a Bachelor of Science in Civil Engineering from Tulane University and a Master of Science in Structural Engineering from the University of Washington. He is a registered professional engineer in Pennsylvania, New Jersey, Florida, Louisiana and Mississippi.
