

## RHEIN-MAIN POST NEWS

### Upcoming Rhein-Main Post Meetings and Events

- **23 or 25 (tbc) August 2023** | Anti-Terrorism/Force Protection (AT/FP)
- **21 September 2023** | STEM TED Talk (virtual)

### SAME Rhein-Main Post 2023 Scholarship Awards

- **First place** (\$1,500) recipient is **Isabella Singleton**, a 2023 graduate of Stuttgart High School. Isabella is attending Columbia University in the fall to study Aeronautical Engineering.
- **Second place** (\$1,000) recipients:
  - **Benjamin Garcia** is a 2023 graduate of Wiesbaden High School. Ben is attending the U.S. Air Force Academy and will study Computer Science/Computer Engineering.
  - **Sydney Reimann** is also a 2023 graduate of Wiesbaden High School. Sydney is attending the University of West England in Bristol to study Architecture.

### In Case You Missed It

- **Construction Cost Outlook presentation by GLEEDS Cost Management** | Check out the presentation and recording at these links: [Presentation](#) | [Recording](#)

## KAISERSLAUTERN POST NEWS

### Kaiserslautern Post Annual Scholarship Golf Tournament

**IT'S NOT TOO LATE!** Mark your calendars for 18 August for a day of enjoyment and social interaction and teasing on Woodlawn Golf Course. This is the primary fund-raising event for STEM scholarships for the year. Tiered sponsorships are available. Registration information will be provided in the near future upon approval through Ramstein AB Private Organization channels. Thanks in advance for your interest and support! More information on attached flyer. POC: Al Lucht | +49 152 298 81776 | [KTown.SAME.Golf@gmail.com](mailto:KTown.SAME.Golf@gmail.com)

### Kaiserslautern Students at the SAME Engineering and Construction Camp at the United States Air Force Academy

Five local Kaiserslautern students attended the SAME Engineering and Construction Camp at the United States Air Force Academy, Colorado from 6-12 July 2023. The popular SAME STEM Engineering and Construction Camps give students the opportunity to explore what a future career in engineering might look like through a variety of hands-on activities, from building concrete beams, operating drones and remote-controlled submarines, using survey equipment, constructing and testing cardboard boats, and much more! The students are posing in front of a concrete beam they designed, built, and tested. Pictured from left to right: D. Matthews (Ramstein HS), S. Pinero (Ramstein HS), N. Truschinski (Kaiserslautern HS), E. McFarland (Ramstein HS), and A. Solanga (Ramstein HS).

These students will share their camp experience at a post meeting in October or November. Applications for the 2024 SAME STEM Camps season opens in December 2023. Check out <https://www.same.org/camps-recap/> for a full recap from all the SAME STEM (Scott Matthews, Post STEM Camps POC, email: [same.ktown.STEM.camps@gmail.com](mailto:same.ktown.STEM.camps@gmail.com))

## UK POST NEWS

### In Case You Missed It

- **Increasing Resilience to Climate Risk for Defense and Civilian Agencies** | Mr. Bilney (Stantec) presented case studies of several climate-related severe weather risk and resilience, vulnerability, and prioritization projects for US military and civilian agencies. He described the analytical and prioritization processes and methods used and lessons learned from the projects. One case study covered a current project for the US Department of State to assess and prioritize the climate-related and other natural hazard risk at 294 facilities in 181 countries, as well as the on-site assessment process. | Check out the presentation recording here: <https://youtu.be/dDQdr2zfAk8>

## EUROPE REGION NEWS

### In Case You Missed It

- **IGE Event in Stuttgart with EUCOM and AFRICOM leadership** – Taking SAME to Stuttgart
  - Europe Region Posts leaders gave a short presentation on the value of SAME membership.
  - Europe Region Members shared their impressions on the value of National, Regional, and Local SAME Industry Government Engagement Events.
  - Volunteers provided an overview of a couple JETC sessions of interest.
  - EUCOM, AFRICOM, and Industry engaged in discussion about top priorities, significant challenges/barriers, and areas where SAME can support by bringing solutions to help deliver the mission and solve problems.
- Check out the presentation and recording at these links | [Presentation](#) | [Recording](#)
